During the first few weeks of the "clean up" operation the amount of dirt appears to have grown.

Despite all of the many truckloads of dirt dumped on the core of WTC1, it still fumes. This photo was taken on 10/3/01.

On 10/28/01 there is still fuming from the wet dirt pile. Note the puddle in the foreground. There are pools of water under a beautiful rainbow! Those orange-rusted core columns are very bright.

Rudi Giuliani's "120 dump trucks"

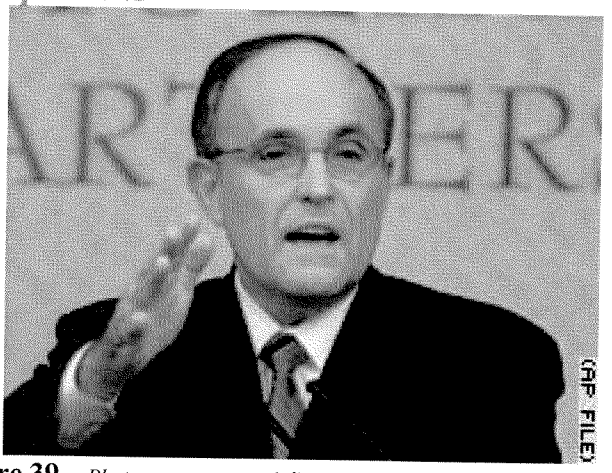

Figure 39. *Photo source story_giuliani.jpg* http://drjudywood.com/media/010912_GIulianiDumpTrucks.mp3 *Statement (9/12/01) Source*

"We were able to move 120 dump trucks out of the city last night. (So) it should give you a sense of the work that was done over night. And so, some of the debris has already been removed. More of it is being removed, and it will be done by barge all throughout the day today."

On 9/12/01, WCBS radio recorded Rudi Giuliani's following statement:

There is evidence of trucks bringing dirt into lower Manhattan.

DOT Security Consulting

Showcase Project

Quoting ARA:

> "The General Services Administration (GSA) managed the design and construction of a build-to-lease project for the Headquarters Building of the Department of Transportation (DOT)."
>
> "Results and Benefits
> ARA provided the GSA/DOT the design and installation of electronic and physical security systems to provide the level of protection required by the DOT."

What happened to the DOT camera images of the Pentagon and elsewhere? I think ARA knows.

Does ARA handle the Virginia DOT cameras near the Pentagon? How about those in NYC?

III.

Conclusion

I conclude by once again acknowledging appreciation for the procedural handling of my RFC/Supps. I now request that the procedures be followed up with the proper analytical approach that will result in the retraction of NCSTAR 1 in its entirety because the report does not properly account for the destruction of the WTC towers because it fails to address the use of directed energy weapons and because those who assisted NIST had clear conflicts of interest that resulted in the issuance of a fraudulent report.

If any additional information is needed properly to process this Appeal, please revert.

Respectfully,

Dr. Judy Wood
