Dear Teagan,

Thanks for acknowledging. Your case reference information below is in error as it incorporates the very error to which I draw the PTO's attention. The title of U.S. Patent 354,788 is **NOT** "Siphon for Beer" – it is "Incandescent Lamp"; and the inventor name is **NOT** F. Heyman but rather A. Hickley. The title and inventor you cite belong to U.S. Pat. No. 354,787, which requires no correction.

You should be able to correct at least this case reference record before 60 days are due....

Thanks,

Ron
